Gift Tag Instructions DVD

Step 1: Hoop tear away stabilizer.

Step 2: Run Color 1, the placement stitch for the tag. Here three tags have been combined into a 5x7 hoop.

Step 3: Run Color 2, the placement stitch for the clear vinyl window.

Step 4: Place Vinyl over the placement stitch and stitch Color 3, this will tackdown the vinyl.

Step 5: Trim the vinyl.

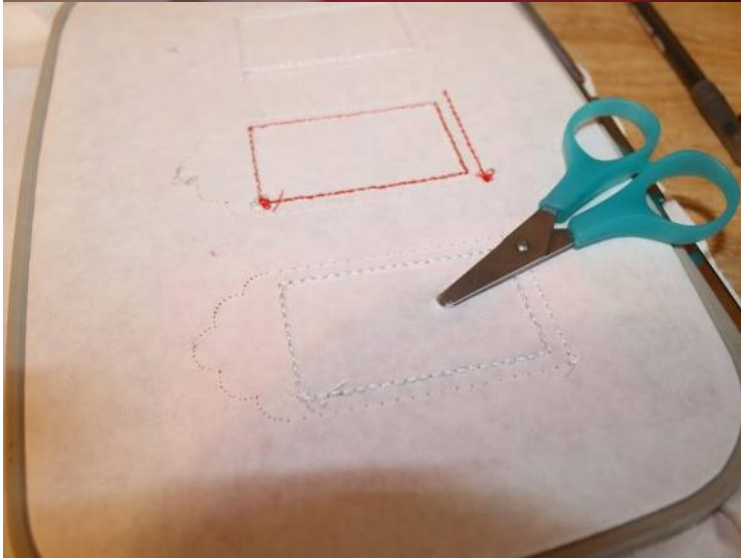

Step 6: Place Fabric over the top of the tag placement stitch. Run Color 4, this tacks down the frame fabric to the vinyl.

Step 7: Run color 5, this stitches the outline stitching to the end of the tag.

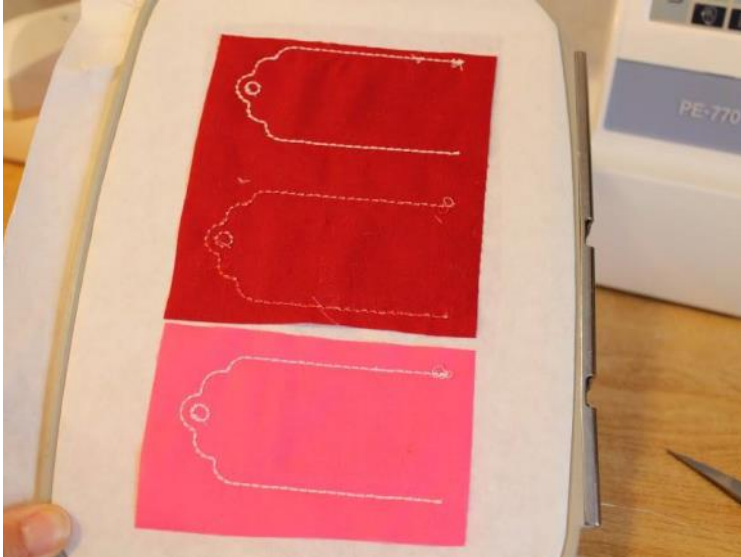

Step 8: Remove hoop from machine and turn over. Carefully remove the stabilizer from the back of the vinyl window. Start by poking the middle with a sharp scissors and be careful not to cut the vinyl.

This is how the back of the hoop should look after the stabilizer has been removed from the window.

Step 9: Place fabric over the back of the hoop and run color 6, this is the final outline around the ornament. Notice the end is open so the label can be slid in.

Step 10: Remove from hoop, remove stabilizer and trim around tag. Using a seam ripper to start, remove the top fabric from the vinyl window. Punch a hole and use ribbon to create a loop to attach to a package.
